

Wood End Park Academy

To Question is to Grow

Manish Ladwa

I would like to make a positive difference to the children's education, by driving up standards to positively affect children's lives and attitude. This is a great way to get to know the local community and be part of a team to improve communication between the school and parents along with being a go to person for parents with any of their issues concerning their child's time in school. A great way to express my skills and knowledge along with learning and developing new skills in a unique environment.

I am eager to learn the education sector and get a more insight in to how the school works and their daily challenges, which will benefit to understand and appreciate the entire school and the people involved running a successful school, not to forget the dedication and extremely hard work of teachers who are the true unsung heroes. I would like to raise the profile to the teachers to the community and get parents to pay a key role in hand with teachers to make their children's education fun and rewarding as this is the foundation of their core education.
